COMMISSIONER QUESTIONS PRPC SALARIES

Regional Spending Scored By Fulgenzi

Randall County commissioners Monday leveled more criticism at Panhandle Regional Planning Commission — this time for amount of salaries paid and personnel employed.

Commissioner John Fulgenzi was especially critical of the \$16,500 salary being paid PRPC Executive Director Ernest Clark and of the hiring of Larry Goodman at \$13,561 a year.

Fulgenzi termed the salary of Goodman as "ridiculous." "This is the trouble with government, too much non productive money spent," he declared.

On Fulgenzi's suggestion, the commissioners agreed to

ask for a profile and job description on both Clark and Goodman.

Fulgenzi said he would like to know what each man was earning before coming to the PRPC.

Contacted Tuesday morning Clark said he was employed as assistant city manager of Stillwater, Okla., before joining PRPC as its executive director last June.

He said he drew \$12,900 a year in that capacity.

"If I was paid by the hour now I'd be drawing less than I was making in Oklahoma," Clark declared.

Clark said Goodman was employed by PRPC as a physical planner to plan water and sewer facilities, open space use and other physical items for the area.

Goodman currently is employed with the West Central Texas Council of Governments at Abilene at \$12,000 a year.

Commissioners court Monday agreed to participate in a Metro Intelligence Unit but with reservations.

Commissioners were critical of the cost involved.

Budget for the first 36-month span of the project is set at \$581,458. Propponents hope that \$364,531 will be supplied through federal grants.

Plans call for law enforcement (see REGIONAL, page 9)

Band Candy Sale Begins Tomorrow

The annual CHS Band Candy Sale will begin tomorrow.

The effort is being sponsored by the Canyon Band Parents. Boxes of the "World's Finest Chocolate Almonds" will be sold for \$1 per box.

The boxes will be delivered after one week of sales.

Orders may be placed by contacting any band member or calling 655-3734.

Cyclist Hurt In Fall In Canyons

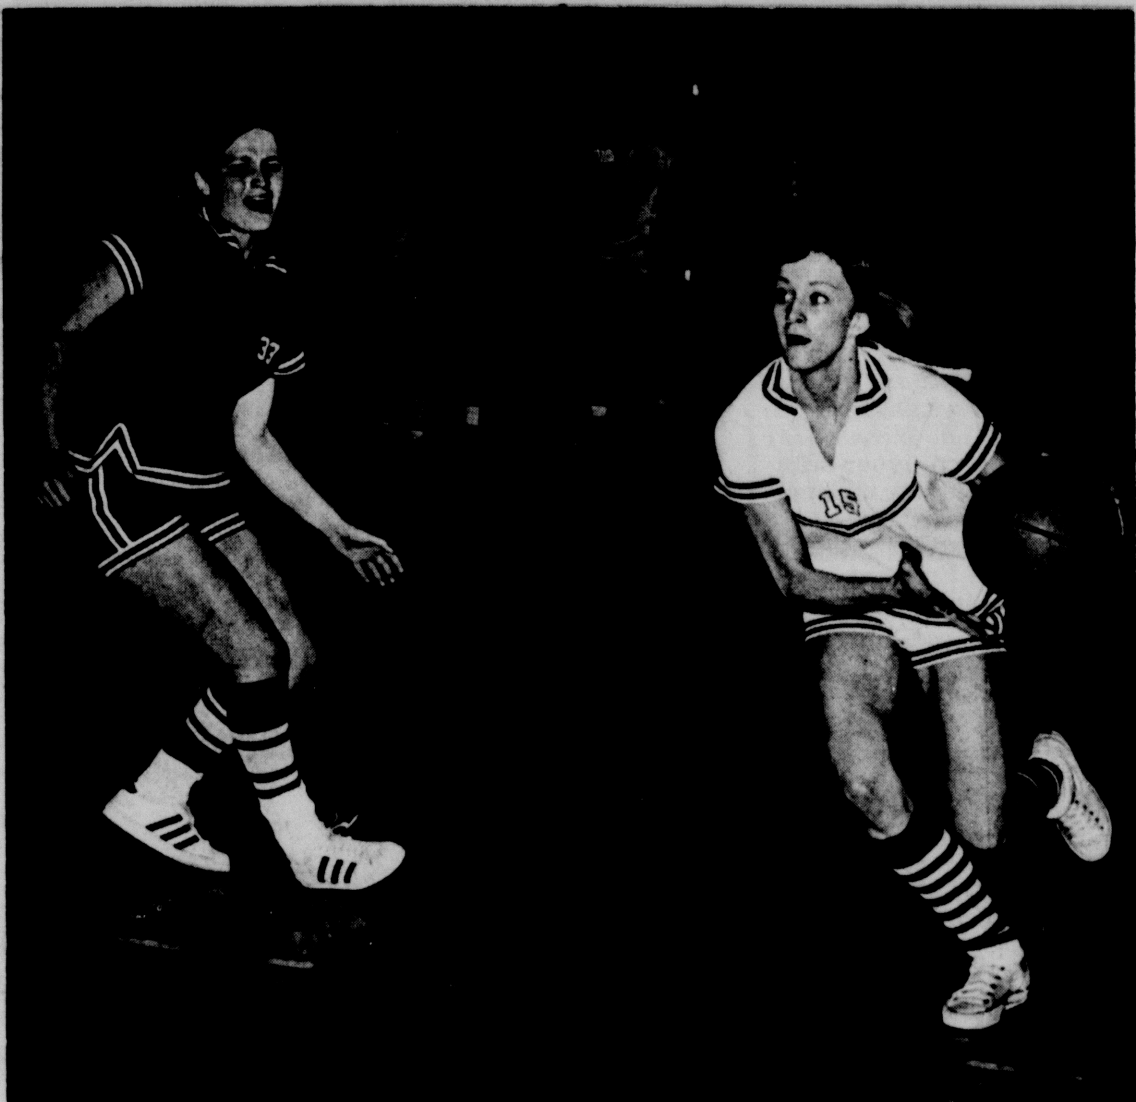

A motorcyclist who fell from a 35-foot bluff in Palo Duro Canyon Sunday was listed in critical condition Tuesday.

He was being treated in the intensive care unit of Northwest Texas Hospital in Amarillo.

Robert A. Kachiro, Jr., 15, of Amarillo, had apparently ridden his motorcycle up a dirt trail which dropped off suddenly and was unable to stop, according to Mrs. Sue Earhart, secretary at Palo Duro Canyon State Park. She knew of no witnesses. Kachiro suffered a broken clavicle and internal injuries, according to Mrs. (see CYCLIST, page 9)

Rocky Chamber, CHS sophomore, works on the sets for the school's musical, "Guys and Dolls". The show will appear at 8:15 p.m. February 4, 5, and 6 at the CHS auditorium. All tickets will be reserved. Student tickets are \$1.50 and adult tickets are \$2.00 and may be bought from any cast member or at the door.

Lynette Slack drives for the basket in the Tulia game Tuesday night. Defending is Shelly Wilterding (31). The girl Eagles defeated the Tulia Hornets 41-39.

Sting Hornets

Girls Whip Tulia

Showing real championship form, the Canyon High School Girl Eagles nudged the tough Tulia Hornets 41-39 here Tuesday night in a contest that was not decided until the closing seconds of the game.

The Hornets lost their stellar guard, Judy Carlisle, and Eagle sharpshooter Letta Gill went the foul route as the game ended.

Gill paced her team mates in scoring with 14 points.

Tonya Toles led the scoring attack against the Eagles with a blistering 32 points—all but seven of her team's total. She sank 20 of 26 free throw tries.

Both teams were prone to foul in the intensely competitive contest. The Eagles

committed 19 violations and the Hornets 17.

The Eagles hit 19 out of 30 free throw tries for 63 percent while the visiting team hit 23 of 32 for 72 percent.

The Eagles put the ball up 30 times for 11 field goals while the Hornets made only eight field goals in 24 tries.

In the first half the visitors were held to a single field goal by the Eagle defenders although they managed 17 free throws to tie the ball game at intermission.

The Eagles held a paper-thin 32-28 lead by the end of the third period and somehow clung to it through the final period.

"We were tight for this game," commented Coach

Bob Schneider. "But our kids came from behind when we really needed it. They had us down 5-0 early in the game. Tulia has a good ball team."

Schneider had praise for his guards and their ability to control the boards in the second half.

"I thought our defense did (see GIRLS, page 9)

Earl Head Given 3-Year Probation

Earl Head, 61 years old, 804 Twenty-first Street, drew three years' probation Monday after a jury of eight men and four women found him guilty of assault with intent to murder without malice.

Punishment was also set by the jury.

The only jail time Head drew in the October shooting of Mrs. Thelma Martin, 42, was for refusing to tell from whom he borrowed the gun he used.

Head told from the witness stand how he had a telephone spat with Mrs. Martin, with whom he had been keeping company, and then borrowed the gun about two hours later.

He even admitted having fired the shot that blinded Mrs. Martin in one eye and partially paralyzed her right arm but he adamantly refused to tell where he got the gun.

"I promised the guy I got it from I wouldn't tell," Head testified stotically.

He said he hid the gun in his boot after the shooting and returned it to its owner the next day.

After Head balked on revealing the source of the

gun, Judge Don Dean retired the jury and told Head's attorney, Bob Carnahan, to instruct his client on the penalty of contempt. Returning to the stand, Head still refused the information.

After the jury had returned its verdict, Judge Dean fined Head \$100 and gave him three days in county jail on the contempt charge.

Mrs. Martin, who had been a waitress at the Cowboy Cafe, was first to testify for the state. She sat in the witness chair with her paralyzed arm cradled on a pillow (see PROBATION, page 9)

Five From Canyon Make State Band

Canyon placed five members on the All-State Saturday in Lubbock and has the distinction of having more All-Staters from one city than any other in Area A.

Area A, which includes one-fifth of the state, has among its cities participating, El Paso, Odessa, Lubbock, Midland, and Amarillo.

The CHS All-State Band members are Brad Garner, CJHS freshman, flute; Nancy King, sophomore clarinet; Doug Rittenberry, sophomore clarinet; Teddi Crager, sophomore flute; and Stephen Rhodes, senior baritone.

The five band members will participate in an All-State Band Clinic at WTSU (see ATTORNEY, page 9)

Rec Group Meet Slated Tonight

A program director is to be chosen by the Governing Board of the Summer Recreational Program at a meeting in the WTSU Activities Center today at 7:30 p.m.

The group will also vote on its proposed budget of \$4,700.

The money would be used for the hiring of instructors for the varied summer program, which is to include swimming, gymnastics, tennis, twirling and cheerleading, bowling, rifle safety, art and square dancing. Church sponsored volleyball leagues and men's slow pitch softball will also be scheduled.

Dr. A. J. Luquette, board chairman, says that there is a possibility of adding drama to the courses available.

Dr. Luquette says that the group will seek instructors with a background in the fields in which they are to teach.

The Canyon City Commission has indicated that they will appropriate \$2,500 for

the program. The rest of the budget will come from the \$4 registration fee and from contributions from individuals and clubs.

A single fee will enable a child to participate in any one of the programs or in several.

An all-events day in cooperation with the Canyon Chamber of Commerce has been planned for July 4.

The executive committee is composed of Dr. Luquette, who represents the Lion's Club and WTSU; Mrs. Bobby Dillard, who is the group's secretary-treasurer, representing Canyon Senior High School; George Ritter, Kiwanis Club and WTSU; Dr. Dudley Moore, Board of Education for the Canyon Independent School District; William Cooper, the Babe Ruth League; Bill Gardner, Little League; and Jim Christopher, Canyon City Commission.

Enrollment Down For Spring Term

Registration at West Texas State University closed at noon Saturday with a total of 6,937 who had begun the enrollment process.

Last year's comparable figure for the spring semester was 7,061. However, Dr. Donald Cates, registrar, said that fewer drops have been recorded this spring and that the twelfth-day official enrollment figure, to be known this Saturday, may not be as much below last year's final official figure of 7,018 as the early count would indicate.

Dr. Cates suggested that three factors have contributed to the 124-student drop shown by the unadjusted count.

First, and the largest factor, he felt, was the large number — 1,435 — placed on academic suspension at the end of the fall semester.

Second, Dr. Cates felt that the drought and the resulting economic strain had caused some students to drop out and some who had missed the fall semester expecting to return in the spring to change their plans.

Third, said the registrar, many students who would have enrolled in West Texas in past years, are now at-

tending the vocational trade schools available at Amarillo College and the Texas State Technical Institute in Amarillo.

Many of this last group, according to Cates, were counseled by professors and advisors at WT who felt that these particular students should get technical training which would be of value to them, rather than to pursue a course of failure in academic subjects to which they were not suited.

"We can afford the slightly diminished head count when we weigh it against what's best for the youngster," said Dr. Cates, pointing out that programs at all three institutions are supported by tax money and that the goals of the three are identical: "To help prepare young people for the future and for their adult life."

"I don't believe we're in a losing situation. I think we're in a gainful situation."

Dr. Cates said that from 1965 to the present, he has noted an increase in the percentage of students coming to WT from many high schools in the area. "Our kids are most fortunate when you start looking at (see ENROLLMENT, page 9)

First Negro Prof Joins WT Faculty

BY NELL WILLIAMS
The first Negro teacher in the history of the University has joined the faculty of West Texas State.

Nat Neal, new assistant professor of education at West Texas State University, will work as a member of the staff of Trainers of Teacher Trainers.

The aim of TTT is to develop new tools to be used by teachers in meeting the needs of minority races, Neal explained.

Neal is teaching some classes in addition to his TTT work. He is not the first Negro member of the staff. He said that Roger Scott of the Upward Bound Program was first.

A trial group of 60 prospective teachers is to be chosen in September for training in methods of using new tools for teaching minority students. Neal believes that very few classrooms in the future will be unmixed racially. The new training will be designed to cover areas not touched upon in regular teacher training such as understanding Negro and Mexican-American students, leaning how to motivate them, and how to get along with their parents.

NAT NEAL

Half the teacher-training students chosen will be working toward elementary education degrees, and half will be planning to work in secondary schools. Neal hopes to have about four Negroes and four Mexican-Americans in the first group. The 60 will receive all of the traditional instruction given education students as well as training in the newly-developed methods.

Instructional task force (see FIRST, page 9)

When the Devil infiltrates love it can cause as much misery and tragedy as war.

Five Canyon students were named to the All-State Band Saturday. They are: Teddi Crager, sophomore; Nancy King, sophomore; Brad Garner, freshman; Stephen Rhodes, senior; and Doug Rittenberry, sophomore.

by Troy Martin

FROM THE CANYON RIM

I'm not in sympathy with the women's liberation movement, but I do think that women are not always regarded as first class citizens when crimes of violence are committed against them. Rape is a different story. Normally, pretty rough sentences are handed down in cases of rape. But I sometimes wonder if juries do this because the community's collective male ego has been affronted.

About five years ago a Randall County man shot his wife to death in front of their small children. He got two years for it and then drew 12 years in a neighboring county for just wounding a man.

Last August a man in a drunken rage beat his wife to death in South Amarillo then hauled her nude body and dumped it into a pasture just north of Hollywood road.

He got five years for it and

will probably do less than two.

This week another Randall County man drew a probation sentence after being convicted of shooting a Canyon woman and crippling her. He drew more jail time for refusing to tell where he got the gun than he did for shooting the woman.

The penalty for shooting a bald or golden eagle in this country is up to two years in prison and a fine of \$10,000.

I think the female of the species has just reason for complaint when society gives a golden eagle more protection than it apparently gives a woman.

Panhandle Regional Planning Commission went to great lengths to get Randall County included a couple of years ago.

It may be just as anxious to get Randall County out now.

Commissioner John Ful-

genzi is a worthy successor to Clarence Beckman who always said what he thought and let the chips fall.

Fulgenzi is getting about the same reputation in the early days of his tenure as county commissioner. Fulgenzi fired a broadside at PRPC in Monday's meeting of commissioners court.

The new commissioner asked some pointed questions as to job qualifications and former salaries of employees of PRPC. You can bet he will be asking a lot more in the future.

Of course PRPC is a bureaucracy. Those who run it will build themselves a kingdom if they are allowed to do so.

If the PRPC is to serve a good purpose it needs John Fulgenzi who are intelligent, educated, informed and dedicated to watch over it and see that it doesn't get out of hand.

After a decade the county and city got their fire contract and jail use squabble settled. Or have they?

It looks like the two government entities may be in a hassle now over insurance.

Senator Edward Kennedy's White House hopes waned again last week when Robert Byrd of West Virginia defeated him for party whip in the Senate.

It was the first defeat for any Kennedy since John F. failed to get the nomination for vice president in 1956.

US News & World Report this week quotes a highly placed Democrat as saying: "The simple truth is that Teddy just didn't do his homework. He reached the point where he was trying the patience of Mike Mansfield, the majority leader, who is one of the most patient men in the world."

Freemans Have Son

Mr. and Mrs. Don Freeman announce the birth of a son, Steven Wayne, on January 15, in Amarillo.

The infant weighed 4 lbs. 7½ ounces at birth and was 19½ inches long.

Maternal grandfather is Mr. Dale W. Virden of Cluver, California.

Paternal grandparents are Mr. and Mrs. Truman Freeman of Canyon.

Marc Wilson Withdraws From WTSU

Marc Wilson, outstanding freshman basketball player from Lubbock, has withdrawn from West Texas State University, Coach Dennis Walling said today.

"Marc withdrew because of personal and financial reasons," Walling said.

The 6-foot-6 Wilson, regarded as one of the top high school players in Texas last year and recruited by colleges outside the state, played with the West Texas freshman team during the fall semester.

"Marc's withdrawal has nothing to do with academics," Walling said. "He passed 12 hours during the fall semester and was eligible for further participation under Missouri Valley Conference rules."

Wilson, 20, son of Mr. and Mrs. J.P. Wilson of Lubbock, is married.

"We hope that Marc can get his personal affairs in order and will return to us," Walling said.

Exams Offered For Teaching, Counseling

The National Teacher Examination and tests for acceptance into the Counselor's Certificate Program at WTSU will be given Saturday by Dr. Kenneth W. Waugh, director of testing and counseling for the university.

The Teacher Examination, for seniors who plan to teach and for teachers applying for positions in school systems which encourage or require the test, will be administered in Room 201 of the University Complex South at 8:30 a.m.

Students who wish to earn counseling certificates are required to take three psychological tests before being admitted to the counseling program in the School of Teacher Education. These will be given in Room 305 of the Education Building at 9 a.m.

Our World

an intolerant dictatorship.

When Americans elected what professed to be conservative Republicans, and the most powerful appointive government positions were filled with liberal Democrats it was called tolerant democracy.

The destruction of our two-party system, according to Kirk, is a cardinal goal of the communists. When we get a socialist program regardless of which party we elect, why bother?

Kirk says there are three hindrances that must be removed before the communist revolution can succeed: God, the family unit, and constitutional government.

As long as people believe that authority comes from God, a dictator cannot be supreme.

The second enemy of communism is the home. This divine institution which teaches love and loyalty must go. The Women's Liberation movement is in the forefront of the offensive against the family.

Communists rest secure in the knowledge that they have never needed more than 3% hard-core comrades to control any government. As soon as their liberal front organizations nullify the nation's constitution, they are ready to take over.

The Supreme Court has managed to destroy our Constitution almost unaided. However, some civil rights groups and others have done the leg work for the Court.

This young Negro offers no apology to any minority group for his loyalty to America. He said that when the communists take control, the minorities and the radical liberals are always the first to be liquidated.

Kirk makes it quite plain that he is loyal to God, America, and his own community — in that order. His experiences inside communism convinced him that Americans are confronted with man's ancient dilemma: war or slavery.

Take your choice.

Susan Carol Phillips became the bride of Mike James Dutton on Saturday, December 19 in the Las Animas, Colorado Methodist Church.

The Rev. DeLon Hales, pastor of La Junta, officiated the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Gale Phillips of Las Animas. The groom is the son of Mr. and Mrs. Jo Carroll Dutton of La Junta, Colorado, formerly of Canyon.

The sanctuary was decorated with a six foot two inch silver horseshoe, symbol of luck and happiness, which was garlanded with spruce roping and red roses. Twin seven candelabras

flanked the horseshoe.

Drapes of spruce garlands tied with white wedding bells, aisle candles tied with blue and white bows accented with orange blossoms completed the decorations.

Preceding the ceremony, music was furnished by Mrs. Forrestine Odell, pianist and Mrs. Dale Kesterson, guitarist. Selections included "Indian Love Call," "Because," "Bless This House," "I Love You Truly," and "Always."

The bride wore a floor length formal gown of white slipper satin fashioned with empire waistline and long petal point sleeves. The gown, fashioned by the bride's mother, was designed with a detachable

chapel length train lined with slipper satin and accented with scalloped lace.

The bride's veil of silk illusion and lace fell to elbow length from a bridal coil of lace and pearls.

She carried a white orchid atop a prayer book for her bouquet. White streamers and stephanotis cascaded from the arrangement.

The bride's only jewelry was a blue sapphire and diamond necklace, a gift from the groom.

Miss Beth Dutton, sister of the groom, served as maid of honor. She wore a floor length royal blue gown of imported lace with floor length train attached at the center back with a Dior bow.

Bridesmaids were Misses

Linda Miller and LaVonne Tomlin. Their gowns were made similar to that of the maid of honor, only without a lace train. Each dress had an empire waistline and full puff sleeves with fitted cuffs. Their headpieces were head circlets of silver re-embroidered with iridescent sequins and shoulder length royal blue veils. They carried silver tipped white chrysanthemums and spruce cascades entwined with blue Christmas balls.

Sandy Coffield, cousin of the bride, was flower girl. Albert Phillips, nephew of the groom, was ring bearer.

Dave Dutton, the groom's cousin, served as best man. Mike Miller of Greeley and Don Schray of Fort Collins were groomsmen. The bride's cousins, Larry and Charles Jones of VanAlsten, Texas, Don Dutton, cousin of the groom, and Skip Johnson, served as ushers.

Candlelighters were Don Dutton and Larry Jones.

Ben Lacy sang "God Made You Mine," "With These Rings We Are Wed" and "Marriage Vows" for

the ceremony.

The bride's aunt, Mrs. Ty-rina Jones of Texas, sat at the guest book. Mrs. Harold Morlan, the bride's aunt and Mrs. Jim Simon of Canyon, and Mrs. Max Dutton of La Junta, both aunts of the groom, sat at the gift tables.

Mrs. Galen Phillips, sister-in-law of the bride, was in charge of the reception. The serving table was covered with a royal blue skirted cloth covered with a white lace tablecloth.

Friends of the bride, Mrs. August Miller and Mrs. John Miller, baked and decorated the four-tiered wedding cake which fea-

Grandchildren In Every Grade

Mrs. Carl Hartman, Sr. has seventeen grandchildren in the Canyon Public Schools...one or more in every grade.

If that's not a record, then perhaps adding that the event is in its second year and will take place for two more just may be one.

Mrs. Hartman has 31 grandchildren in all.

Mr. and Mrs. Carl Hartman, Jr. have the following in their family, Dennis, senior; Marvin, tenth; Junita, eighth; Duane, sixth; Floyd, fourth; and Galan, first.

Mr. and Mrs. Bernard

Probation...

low. Mrs. Martin told the jury she is a widow of five years and once worked with Head's late wife who was a cook at the cafe.

She said that seven or eight months after Mrs. Head's death she began a friendship with Earl confined to visits and rides with him although she testified she once went with him to the races at Raton but returned the same day.

Mrs. Martin said Head called her the evening before the shooting and asked her what she was doing that evening.

She said she told him she was going with a girl friend to a lounge on the Fritch Highway north of Amarillo. "He said I was cheap and I hung up," Mrs. Martin testified.

She testified that Head showed up at the lounge, followed her and a male companion from the lounge to a cafe and sat outside in his car while they ate. She said Head left the cafe but then got on her trail again almost bumper to bumper as she was returning home.

She said Head parked near her home in Canyon and then pulled up behind her car in the driveway. She was about to enter her house when Head asked could he have a minute of her time, she went on.

She walked to the Head car and "leaned over to the window to talk to him," she declared. She said Head picked a pistol up off the seat and fired.

Mrs. Martin was struck in the left side of the throat. She said a part of the slug is in her upper chest and a part of it lodged against her ribs.

Mrs. Martin said she believes a tire of Head's car passed over her head as he left the scene.

Head testifying in his own behalf said he borrowed the gun because he had gotten some threatening telephone calls but admitted that the last such call he had received had been a month prior to the night he borrowed the gun.

He said he borrowed it about 8 o'clock the night before Mrs. Martin was shot. Head, a laborer at Randall County Feed Yard, denied having followed Mrs. Martin the night before the shooting.

He swore that he fired near Mrs. Martin to scare her out of her "insane temper" and hadn't meant to hurt her.

He also denied having tried to run over her with his car after the shooting and said he left the scene only because he was frightened.

Mrs. Martin's daughter, Gloria Blasingame, testified of having been awakened by screaming early the morning of Oct. 12. She said she found her mother partially in the street and on the curb.

She said she asked her mother who shot her and Mrs. Martin replied, "Earl Head."

Patrolman Jim Warren who was the first officer on the scene gave similar testimony as to what Mrs. Martin said.

Five men testified as to Head's good character and Carnahan put testimony on the stand to show that Head's only brushes with the law included four traffic tickets and a fine for fighting in 1932.

The jury deliberated an hour and 15 minutes before returning the verdict of assault with intent to murder without malice.

District Attorney George Dowlen asked the jury to assess prison time while Defense Attorney Carnahan asked for leniency.

Hartman's family include Kenneth, ninth; Donna, eighth; Linda, seventh; Larry, fourth; Deborah, third; Karen and David are not yet in school.

ment officers from Potter and Randall Counties and the cities of Canyon and Amarillo to make up an elite force to combat major crime — especially narcotics — in the area.

Randall County's share for the period would be \$30,993.38 with the possibility of recovering \$19,187.01 in federal grants.

"My only objection is that the cost is getting out of proportion," said Commissioner Glenn Dowlen who pointed out that a cooperative effort last year paid off big dividends in law enforcement with an outlay of only \$15,000 by all the agencies participating.

"I think it is a wonderful program that can be done by our people rather than by people from Austin and Washington," commented Commissioner Jim Fletcher. "Will we lose control?" asked Fulgenzi.

"Anytime anyone (the federal government) puts a lot of money into something they want some control," replied Dowlen.

"I think we should go along and try it with them this year," commented Commissioner Bill Butler.

In other business, George Blackwell who handles the county's insurance program, told the court that since the Canyon is swapping rural fire protection for use of the county's jail and communications facilities, the city should be responsible for liability insurance on fire equipment and firemen and the county should be responsible for its jail.

So far, a contract on rural fire fighting by the city and availability of the county's jail facilities have been agreed upon verbally but have not been reduced to writing.

The court was notified that Dean Bridges, convicted here on narcotics violation charges, has taken a pauper's oath and wants the county to pay for a court transcript for an appeal of his case.

The transcript would cost \$352.

The court agreed to pay \$26,805.51 toward the cost of operating the Adult Probation Department for the 47th, 108th and 181st District Courts. This is a 37.1 percent of the total cost and is an increase of \$493.96 over a proposed budget submitted last July.

Commissioners agreed to pay 37.6 percent of the salary for 181st District Court Reporter Glenn Vaught and 37.1 percent of the salary for W. K. Davis. Each reporter receives \$10,500 a year.

In other business, County Judge Woody Pond was appointed to the Texas Panhandle Community Action Committee to replace Carroll Brown.

state-supported institutions," he continued. "The variety is the best available for any area in the state. I believe we cover the waterfront better than the Fort Worth-Dallas area. Nobody does a better job at the junior college level than Amarillo College. If they had a worse junior college, we'd have more of their kids. And they're helped by having WT in their back yard."

The hearing on the case was to continue today in the 181st District Court of Judge Don Dean.

Bufs Hit Road After Home Loss

The West Texas State Buffaloes, disappointed after their first home defeat of the season Monday night, departed Wednesday on their third road trip of the month to meet Morehead State and Cincinnati.

The Buffs face Morehead of the Ohio Valley Conference Thursday night and meet former Missouri Valley Conference member Cincinnati Saturday night.

Southwestern Louisiana, the No. 2 NCAA College Division team in the nation, ended West Texas State's six-game winning streak at home 91-86 as the Bulldogs' Dwight Lamar struck for 42 points.

The Buffaloes, trailing by 14 points at one time, could

The rubella count taken in the Canyon Public Schools shows that over 50 percent of the children have not had the vaccine. Mother's March chairman Mrs. Don Max Vars urges parents to have their children vaccinated by their family physician.

Junior High Cage Scores

Canyon Junior High School Purple teams won a game and lost two with Stanton of Hereford teams Monday night.

The seventh grade lost 26-20; the eighth grade 34-28; and the ninth grade won 49-42.

White boys teams won two and lost one at Dimmitt Monday night. The seventh grade won 33-29 and the ninth grade won 55-51. The eighth grade lost 49-26.

The ninth grade girls White team tipped Dimmitt 26-25 while the seventh and eighth grade teams lost 21-16 and 21-14.

get no closer than two points as Lamar's timely baskets kept West Texas from pulling even.

Ralph Houston, 6-foot-6 sophomore, scored 25 points for the Buffs and 6-8 Steve Davidson led the rebounders with 15. Ray Golson, the Buffs' leading scorer, was held to 11 points and saw his season average dip to 20.6 points per game.

The Morehead Eagles opened the season with two victories and then fell on hard times, losing 12 in a row. Last weekend they dropped games to Tennessee Tech 75-69 and East Tennessee 71-64.

"We had a chance to win both games but things went haywire in the last few minutes," said Morehead Coach Bill Harrell.

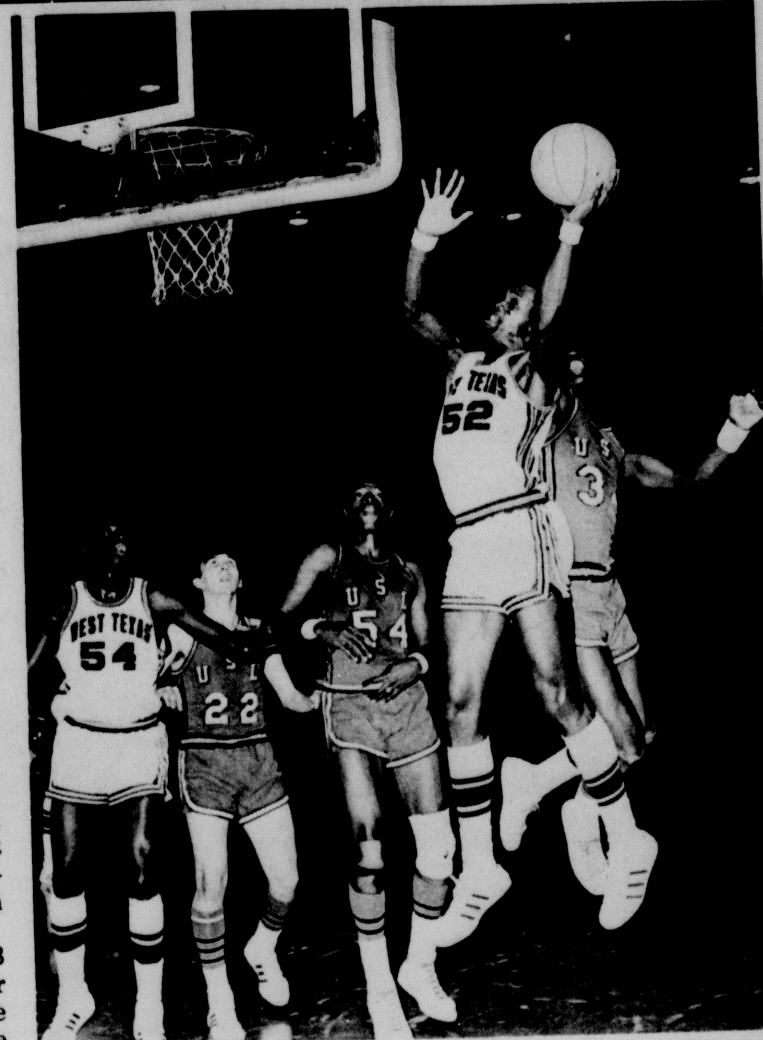

Jim Day, averaging 25.3 points through 14 games for Morehead, is second in the Ohio Valley scoring race and 21st in the nation.

Cincinnati will probably carry a 10-6 won-lost record into Saturday night's game with the Buffaloes. The Bearcats lost to Louisville of the MVC last week and then whipped the Iowa Hawkeyes of the Big Ten Conference at the Chicago Stadium. They played Ohio University Tuesday night.

The Bearcats have four players averaging in double figures. Derrek Dickey, 6-7, leads the scorers with an 18.5 average.

West Texas State, 10-5 going into the next to the last trip of the season, meets Weber State Monday night in the Amarillo Coliseum with only one day off for flight home from Cincinnati.

Weber State defeated the Buffs by 10 points in the opening game of the season at Ogden, Utah, as All-American candidate Willie Sojourner scored 16 points, grabbed 18 rebounds and blocked 3 shots.

Big Steve Davidson goes up for a shot in the Monday night game with Southwestern Louisiana. Fred Saunders, behind Davidson, is doing his best to defend. The Buffs lost to the Louisiana team.

Chamber Drive Nears Close

Roland Black, manager of the Canyon Chamber of Commerce, asked that all membership cards and packets be returned to the Chamber by Friday, if at all possible.

The membership drive, which began last week, "is running about 50 per cent," according to the cards already returned.

Handmade Wigs For The Stage Discussed

Gorgeous handmade wigs in various styles dating back to the 18th Century were shown at the 14th Annual Buffalo Masquers Workshop Saturday by Miss Claudia Beets of the University of Arizona.

The wigs, which cost under \$5 each to make, may be made in any color and may be fashioned to depict any period for use on the stage.

Miss Beets and two faculty members at the University of Arizona made 18 wigs in 3 days for the production "A School for Scandal" which had an 18th Century European setting.

"The wigs are basically made of nylon horsehair," Miss Beets stated. "It is bought by the pound from New York."

Before beginning the following materials should be assembled: Nylon horsehair, muslin, Will Hold glue, regular tissue paper, and Krylon spray.

"The first step in making a wig is to measure the head size of the actor. You measure around, as you would a hat, then measure from the forehead to the base of the skull, and from temple to temple," she explained.

"You then cut out the unbleached muslin to conform to the head shape. The muslin crown is shaped by five equal points that are sewn together. The muslin base is then wet and put on a headblock the same size as the actor."

"When the muslin has dried to that size and shape the wig is built upon it," she continued.

"The wigs were made in many different styles, for the play. In the 18th Century, the styles differed depending upon the character's place in society. Styles differed within the aristocracy, for there were different levels of prominence," Miss Beets explained.

"Once the general design is decided upon, the head base is built up with tissue paper. There is no use filling in height with the nylon horsehair."

Crumble up the tissue paper into wads and then glue the paper onto the wig base."

"Once this dries you can begin molding it into the shape you want."

Ag Board To Expand

The choice of members for the expansion of its executive board is on the February calendar of the Agriculture Development Association for West Texas State University.

The group plans a board of 30 members.

"The nylon horsehair is then cut into the desired lengths, and attached to the front hairline." The strands are attached as if growing so that no raw edge ends show.

"Work to the back," the instructor explained. "You need not glue the hair all over the base, but just in selected places."

"Use a rubber band to secure the hair in place until it dries."

"After the base is covered with hair you begin the stylization."

"Individual curls are made by cutting strands the desired lengths, then steaming the hair and rolling it around various sized poles."

"When the steam has dried, the curls are ready to be placed on the wig. Attach them with a white hair pin until you decide on the final placement."

"You may wish to try the wig on the actor at this point and see if this style is appropriate to the character."

"When the desired style is decided upon, each curl is glued onto the base, pinned, and left to dry. The long curls in the back may be glued at the top of the curl and then left to hang loose at the bottom."

"When the stylization is complete, spray on Krylon. Krylon is used to set the hair so that it will keep its shape, it is the same fixative spray that is used to coat pastel drawings."

"A ribbon and lace access-

sory may then be added. This may be changed with each costume change."

After use in each production the wigs may be stored for future use.

Miss Beets received her Master of Arts from the University of Arizona this month. At 17 she danced with the Los Angeles Ballet Company and has been a soloist with the Tucson Ballet Company.

During the summers of 1965 and 1966 she was a member of the Imperial Players of Cripple Creek, Colorado and played in a Victorian melodrama.

She has performed Kat Lucas in "TEXAS" for the past three seasons and has appeared in local television in Tucson, Arizona.

Miss Beets will wed Michael Wilson on May 15 in Canyon.

Handmade wigs are easy to make for Claudia Beets. She demonstrated how to make the wigs for the stage at the Buffalo Masquers Drama Workshop.

Smallwood Hits Exotic Livestock

The dean of the School of Agriculture at West Texas State University says the influx of the so-called exotic breeds of livestock into breeding programs may have a detrimental effect on the meat quality the consumer enjoys today.

Dr. Charles M. Smallwood says the exotic breeds produce large and growthy body types, but the offspring may lack the early maturity and carcass quality to make "the very desirable meat the consumer is enjoying today, and we don't know about reproductivity under range conditions."

Variety Ring Has Officer Installation

Mrs. Rita Tucker was installed in the presidency of the Variety Ring Club Jan. 15 in the home of Mrs. Mae Johnson. Other new officers are Mrs. John Jennings, vice-president, and Mrs. Leonard Winters, secretary.

Mrs. Ann Weaver and Mrs. Laura Hartman became members of the group.

The group will meet next at the home of Mrs. Jennings on Jan. 29 at 2:30 p.m.

Smallwood told the Panhandle Livestock Association in a speech this week, and "we know that under range conditions crossbred dairy and beef animals have a poor reproductivity rate because of the high nutrient requirements for milk production."

Modern trends in beef production indicate that a successful cattle farming is really a matter of adjusting animal, environment, and economic factors to yield the greatest profit, Smallwood said.

Adjusting the animal requires that the rancher find a breeding cattle that will produce the optimum weight of beef on a given tract of land as economically as possible. This situation has to

be achieved under the existing environmental and managerial conditions and still must meet the market demand, he added.

"Heredity is the key to improvement in beef carcasses," Smallwood said.

Present knowledge reveals that while size in cattle, as measured by weight and skeletal scale, is of economic interest, it is not the goal of a constructive breeding program, he added.

"The goal is higher weights on less feed at market ages," Smallwood said. "If you breed for rapid growth rate in young bulls after weaning and for higher weaning weights in calves, you can expect an increase in feed efficiency and

some increase in mature size."

The 200 Panhandle ranchers were told that their net income is determined by the total beef produced per unit area of grazing or fee — not per individual animal unit. Selection for high production in the cow then does not necessarily mean greater efficiency and more profit.

Smallwood said the relevancy of this fact since feed requirements are directly related to weight in beef cattle and the trend is toward increased mature weights.

Association president, John "Rusty" Tinnin of Amarillo, presented Smallwood a \$200 check for the Nance Ranch Project.
